## After Actions Report

**To:** Dispensary | Client name withheld

**From:** Trident Security Services, Inc.

**Synopsis:** Unidentified male accessing property after hours.

### After Actions Summary:

An unidentified male accessed the property via climbing a wall shared with an adjacent apartment complex. Analytics quickly acquired the individual (indicted by red box tracking movement). Trident SARC operator was alerted and quickly gained control of the situation through an audible challenge. The subject was immediately compliant with the commands, leaving with no loss or damage to the property. From time the subject breached the property line to audible challenge was 54 seconds. Time line for subject to egress after audible challenge was 1 min 54 seconds. (Field Comment: The unidentified male did not egress the property via the same means of access. After audible challenge the subject climbed over the gate to the north side of the building exiting though the parking lot.)
